Cloud Infrastructure Engineer

Hybrid & Multi-Cloud Solutions | AWS & Azure | Virtualization & DR Expert

Solution-driven Cloud Engineer with over a decade of experience designing, deploying, and maintaining scalable, resilient infrastructure in hybrid and multi-cloud environments.

Proficient in AWS, Azure, VMware, and Nutanix, with deep knowledge in data protection, automation, and cloud-integrated disaster recovery. Proven leader in modernizing legacy environments and optimizing IT strategies aligned with business objectives. Active Secret Security Clearance. Bilingual: English/Spanish.

Cloud & DevOps Skills

- **Cloud Platforms:** AWS (EC2, S3, VPC, IAM), Azure (Compute, Storage Services, Backup, Entra ID) Nutanix NC2, Cisco UCS
 - **Virtualization & HCI:** VMware vSphere, Nutanix AHV, Hyper-V
 - **Container:** OpenShift, K8, Docker, AWS EKS, AWS ACS
 - **Disaster Recovery:** Zerto, Commvault Cloud, Veeam, HYCU, Rubrik
 - **Automation & Scripting:** PowerShell, Terraform Iaas, Chef, Ansible(concepts) GitHub CI | CD
 - **Storage:** NetApp, Pure Storage, Tintri, Dell, Panzura, Nutanix Mine
 - **OS:** Windows Server, RHEL/CentOS, Linux, Kali Linux, Fedora, Ubuntu.
-

Professional Experience

MB Technology Group LLC – Principal Consultant & Co-Founder

Jan 2024 – Present

- Co-founded and lead a technology consulting firm specializing in cloud architecture, hybrid infrastructure, and disaster recovery solutions for small and mid-sized enterprises.

- Architect end-to-end cloud solutions using AWS and Azure, including workload migrations, BCDR planning, and infrastructure optimization.
- Design and implement automation workflows using PowerShell and infrastructure-as-code tools such as Terraform.
- Provide technical leadership, architecture reviews, and hands-on implementation support across various client engagements.

Nutanix – Healthcare Systems Engineer

Aug 2024 – Mar 2025

- Demonstrate features and explain the benefits of Nutanix solutions to inform customer purchases and support business transformation.
- Size and configure Nutanix solutions.
- Navigate and build long-term relationships with customers; be seen and treated as their trusted and valued resource.
- Communicate customer feedback into the Nutanix ecosystem.
- Partner with sales counterparts to:
 - Develop account plans
 - Create customer persona coverage models
 - Craft proposals and recommend/design solutions based on Nutanix offerings
- Be recognized as a trusted advisor for customers and partners.
- Articulate, design, and deliver cloud strategies involving digital transformation.

RS&H – IT Infrastructure Engineer (Consultant)

Feb 2022 – Present

- **Currently leading efforts to develop and architect a public cloud strategy focused on hybrid cloud adoption across AWS and Azure platforms.**
- Architect and lead modernization of virtualization and storage infrastructure across main data centers and remote sites.
- Re-architected Nutanix clusters to align with hybrid cloud best practices, reducing complexity and cutting costs.
- Spearheaded Commvault Cloud-based backup solution and Zerto DR for seamless cloud-integrated business continuity.

- Deployed Panzura GFS across remote offices to enhance file accessibility and improve cloud storage performance.
- Led enterprise VMware vSphere upgrade to latest version across distributed environments.
-

Nutanix – Portfolio Specialist, Data Center Services

Nov 2020 – Feb 2022

- Provided SME-level expertise on Data Services and BCDR solutions integrated with AWS and Azure.
- Supported lab infrastructure running Nutanix AHV, ESXi, and multiple cloud backup technologies.
- Mentored new engineers, built enablement programs, and provided technical leadership for pre-sales architecture.

Nutanix – Systems Engineer

May 2018 – Nov 2020

- Engineered hybrid cloud DR strategies with Nutanix Mine, Xi Leap DRaaS, and Zerto for enterprise customers.
- Delivered customer bootcamps, webinars, and technical enablement at events like Microsoft Ignite.
- Led deployments and automation across POC environments for HCI, VDI, and cloud workloads.

LifeNet Health – Sr. Systems Engineer

July 2017 – May 2018

- Guided infrastructure replatforming for Azure cloud readiness, focusing on minimizing refactoring overhead.
- Implemented Rubrik backup solution with Azure BLOB tier and iLAND DRaaS, doubling BCDR efficiency.
- Architected high-performance Pure Storage environments for Exchange and mission-critical systems.

CVENT INC – Sr. System Engineer, Infrastructure & Virtualization

Sept 2016 – July 2017

- Supported global infrastructure and led early AWS adoption, advocating for DevOps culture integration.
- Deployed hybrid environments using Pure Storage, VMware, and AWS-based automation initiatives.

Certifications

- AWS Certified Solutions Architect – Associate
- Nutanix Certified Professional (NCP), NCAP, NCSE, NCS-C
- VMware Certified Professional (VCP-DCV)
- Microsoft Certified Professional (Server 2008)
- CompTIA Network+

Education

B.S. in Computer and Information Science – Network Management and Security

ECPI University, Virginia Beach, VA

Military Service

U.S. Navy Reserve – Active Reservist

Combat Veteran – Afghanistan Campaign Medal Recipient, Horn of Africa

Served with Costal Riverine Squadron 10 & 6 in 4th Platoon, PRT Farah, Afghanistan

Full experience history, project portfolio, and technical training available upon request.
