

CHRISTIAN MARRERO BONILLA

Cloud & Nutanix Solutions Architect

Hybrid & Multi-Cloud Architecture | Nutanix HCI | AWS & Azure | Disaster Recovery & BCDR

(571) 278-6415 • christian.marrero@mbtechnologygroup.com • [Portfolio](#) • [Cloud Blog](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Cloud & Nutanix architecture professional with 10+ years designing, deploying, and modernizing hybrid and multi-cloud infrastructure across AWS, Azure, and Nutanix HCI. Brings a rare 360° view of the Nutanix ecosystem — having served as a Nutanix Systems Engineer, Portfolio Specialist, and pre-sales architect — paired with hands-on enterprise experience re-architecting clusters, leading hybrid cloud strategy, and modernizing legacy data centers as a practitioner. Skilled in BCDR/disaster recovery architecture, Infrastructure-as-Code automation (Terraform, PowerShell, Ansible), and translating business requirements into resilient, cost-optimized infrastructure. Active Secret Security Clearance. Bilingual: English/Spanish.

CORE COMPETENCIES

Nutanix & HCI: AHV, NC2, Nutanix Mine, Xi Leap DRaaS, Nutanix Unified Storage, Cisco UCS	Cloud Platforms: AWS (EC2, S3, VPC, IAM, EKS, ECS), Azure (Compute, Storage, Backup, Entra ID)
Disaster Recovery & BCDR: Zerto, Commvault Cloud, Veeam, HYCU, Rubrik	Automation & IaC: Terraform, PowerShell, Chef, Ansible, GitHub CI/CD
Virtualization: VMware vSphere, Nutanix AHV, Hyper-V	Containers & Orchestration: OpenShift, Kubernetes, Docker, AWS EKS/ECS
Storage: NetApp, Pure Storage, Tintri, Dell, Panzura, Nutanix Unified Storage	Networking & Data Center: Cisco DC Networking, iSCSI, Fibre Channel, Distributed Storage Fabric
Microsoft Infrastructure: Active Directory, DNS/DHCP, Microsoft 365, Defender	Operating Systems: Windows Server, RHEL/CentOS, Ubuntu, Fedora, Kali Linux

PROFESSIONAL EXPERIENCE

MB Technology Group LLC – Principal Consultant & Co-Founder

Jan 2024 – Present

- Co-founded and lead a technology consulting practice delivering cloud and Nutanix architecture, hybrid infrastructure, and disaster recovery solutions for small and mid-sized enterprises.
- Architect end-to-end multi-cloud solutions on AWS and Azure, including workload migrations, BCDR design, and infrastructure optimization for client engagements.
- Design and implement Infrastructure-as-Code automation using Terraform and PowerShell to standardize deployments and reduce manual configuration effort.
- Serve as technical lead across client engagements, conducting architecture reviews and hands-on implementation support.

Nutanix – Healthcare Systems Engineer

Aug 2024 – Mar 2025

- Architected and sized Nutanix HCI solutions for healthcare customers, translating clinical and operational requirements into resilient infrastructure designs.
- Partnered with sales counterparts to develop account plans, customer persona coverage models, and solution proposals aligning Nutanix offerings to business goals.
- Built long-term, trusted-advisor relationships with healthcare customers and partners, demonstrating Nutanix capabilities and articulating cloud and digital transformation strategies.
- Channeled customer feedback into the Nutanix product ecosystem, informing roadmap and solution design.

RS&H – IT Infrastructure Engineer (Consultant)

Feb 2022 – Present

- Lead architecture and strategy for hybrid cloud adoption across AWS and Azure platforms, currently driving the organization's public cloud roadmap.
- Architect and lead modernization of virtualization, compute, and storage infrastructure across primary data centers and remote sites.
- Re-architected Nutanix clusters to align with hybrid cloud best practices, reducing operational complexity and infrastructure costs.
- Spearheaded a Commvault Cloud backup solution and Zerto DR architecture for cloud-integrated business continuity.

- Deployed Panzura global file system across remote offices, improving file accessibility and cloud storage performance.
- Led an enterprise-wide VMware vSphere upgrade across distributed environments.

Nutanix – Portfolio Specialist, Data Center Services

Nov 2020 – Feb 2022

- Served as SME for Nutanix Data Services and BCDR solutions integrated with AWS and Azure.
- Supported lab infrastructure running Nutanix AHV, ESXi, and multiple cloud backup technologies for proof-of-concept and pre-sales validation.
- Mentored engineers, built enablement programs, and provided technical leadership for pre-sales architecture across the portfolio team.

Nutanix – Systems Engineer

May 2018 – Nov 2020

- Engineered hybrid cloud DR architectures using Nutanix Mine, Xi Leap DRaaS, and Zerto for enterprise customers.
- Delivered customer bootcamps, webinars, and technical enablement sessions at industry events including Microsoft Ignite.
- Led deployments and automation for HCI, VDI, and cloud workload POC environments.

LifeNet Health – Sr. Systems Engineer

Jul 2017 – May 2018

- Guided infrastructure replatforming for Azure cloud readiness, minimizing refactoring overhead for mission-critical systems.
- Implemented a Rubrik backup architecture with Azure Blob tiering and iLAND DRaaS, doubling BCDR efficiency.
- Architected high-performance Pure Storage environments supporting Exchange and other mission-critical workloads.

CVENT INC – Sr. System Engineer, Infrastructure & Virtualization

Sep 2016 – Jul 2017

- Supported global infrastructure operations and led early AWS adoption, advocating for DevOps culture integration.
- Deployed hybrid environments using Pure Storage, VMware, and AWS-based automation initiatives.

CERTIFICATIONS

- Nutanix Certified Professional (NCP), NCAP, NCSE, NCS-C
- AWS Certified Solutions Architect – Associate
- VMware Certified Professional (VCP-DCV)
- Microsoft Certified Professional (Server 2008)
- CompTIA Network+

EDUCATION

B.S. in Computer and Information Science – Network Management and Security

ECPI University, Virginia Beach, VA

MILITARY SERVICE

U.S. Navy Reserve – Active Reservist

Combat Veteran – Afghanistan Campaign Medal Recipient, Horn of Africa
Served with Coastal Riverine Squadron 10 & 6, 4th Platoon, PRT Farah, Afghanistan

Full experience history, project portfolio, and technical training available upon request.
